

RP Legal & Tax

African Desk

Offriamo assistenza ad imprenditori ed investitori che vogliono esplorare nuovi mercati nel continente africano.

Una solida rete di relazioni con la business community locale e le autorità africane ci consente di supportare i clienti nella pianificazione strategica del business, nella creazione di relazioni sul territorio e nella tradizionale assistenza in ambito giuridico e fiscale, grazie alla cooperazione con studi legali africani. L'esperienza maturata nel campo del social business consente inoltre ai nostri professionisti di assistere NGO, investitori filantropici che operano nei mercati dell'Africa sub-sahariana e imprese attive nel campo della cooperazione internazionale.

We offer assistance to entrepreneurs and investors wishing to explore new markets on the African continent.

A solid network of relationships with the local business community and the African authorities enables us to support clients in strategic business planning, the creation of relationships throughout the continent and traditional legal and tax assistance, based on our cooperation with African law firms. The experience gained in the field of social business also enables our professionals to assist non-governmental organisations (NGOs), philanthropic investors working in the markets of sub-Saharan Africa and companies active in the field of international cooperation.

The background image shows an aerial view of a city skyline during the day. A prominent feature is a tall, modern office building with a blue and white facade. The city is surrounded by lush green trees and some smaller buildings. The sky is a clear, vibrant blue with a few wispy clouds.
